

Fingerprint Reader

SR200 allows you to secure your computer in an easy and convenient manner! With fingerprint authentication as a pre-requisite, your data and files are always protected. You can store important passwords in the Online Accounts Management, conduct effortless auto-launching to your social networks and other websites through SwipeOne and save time via the Application Launcher.

Product Features

Application Launcher (Finger Launcher)

Users can set browsers and applications to be launched by specific fingers.

Online Accounts Management (Password Bank)

Store IDs and Passwords of favorite websites securely. No more need to memorize passwords.

Biometric PC Log On

Logon to PC securely by using fingerprint or password.

Multi-Launcher

Save time and effort by launching your favorite website, email and chat programs simultaneously with just one swipe.

Data Backup & Restore

Conveniently perform backup & restore functions without the trouble and inconvenience from system recovery measures.

Multi-factor Authentication

Variable authentication option through fingerprint or password.

- **Secure Drive (Personal Secure Disk)** : Hide encrypted private files in a totally invisible personal secure disk. Swipe finger to open Secure Drive.
- **File Encryption** : Encrypt sensitive data using AES encryption algorithm technology for added security during attachments or transfers.

Product Specifications

Sensor	Built-in sliding
Resolution	500 DPI
Field Size	192 x 16 pixels
Gray Level	16 gray levels/sensor pixel (4-bit ADC)
Scanner Dimension	9.6mm x 0.4mm
ESD	±15kv
Authentication	
FAR	1/100,000
FRR	1/100
Scanning Speed	~48 cm/ sec
Frame Rate	> 1200 frame/ sec
Finger verifying speed	<0.1s
Hardware Interface	Integrated USB interface(High-speed /Full-speed USB 2.0 interface; backward compatible with USB 1.1)
Software	Windows 7 · Windows Vista SP1/SP2 · Windows XP SP2/SP3
Environmental Requirements	
Operating Temperature	-25°C ~ 85°C
ESD immunity IEC 61000-4-2 Level 4 (+/- 15KV)	

Wison Technology Corporation
